Vol. XI Ed. 7

Wrangell Institute, Wrangell, Alaska

April - May 1965

## STUDENT REPORTS VARY

### GIRLS DORM PROGRAM PRESENTED

On March 26th, the girls presented a program for the boys. They had a lot of fun putting it on. A model show was held to show the do's and don'ts of dressing. Some girls were dressed in the appropriate way and others were dressed just the opposite. One of the girls modeled the way a boy is supposed to dress and another was just dressed sort of sloppy (you know the way boys usually dress).

Another act was played by two girls who were supposed to show how the boy taught his girl how to drive, and how a husband taught his wife to drive. I guess you can figure out the difference in teaching. It was a lot of fun, thanks to GIRLS' DORM.

Everyone is looking forward to the boys program that they will be giving this month.

....Sally Woods

### ALBINOS IN ENGLISH SKILLS

While we were having English Skills with our teacher, Mrs. Gillespie, we came to a story about albinos. Albinos are white skinned people, animals or plants. If you look into your backyard you might see a white bird. Albinos were found in Negro races in Africa, even whole tribes of them.

Albinos have weak eyes and their skin tans easily. Someday if you go to an interesting place you might see a white giraffe or bird. Always keep your eyes open. You might see an albino someday.

....Jacob Malavansky

### SPRING TESTING OVER

Testing week is finally over. Most everybody is relieved. The students have been taking tests since Monday, March 29th. They were completed Wednesday, March 31st. The tests taken were S.R.A. and Metropolitan. The S.R.A. was to indicate if you are ready for the next grade. The Metropolitan tests were to see how you have improved since school started.

Everyone is hoping that they have some good scores. Maybe another test will be coming up at the end of the year. Students, beware! Don't get caught off guard.

....Virginia Smoke

### EDUCATIONAL OPPORTUNITY GOOD

Here at Wrangell you have a great opportunity to get an education.

Wrangell Institute is one of the many places to get an education. At this school you can learn a whole lot if you put a special effort towards it. And to put this special effort means a whole lot of study and work. But it is possible to be done by anyone who wants an education.

Future students, here is an opportunity for an education. Come to Wrangell Institute for it is waiting to be at your service.

....Charles Greene

As it fell upon a day  
In the merry month of May.

....Richard Barnfield

STUDENTS WANT DANCES

Many of the students are complaining about not having the regular Saturday night dances. It is said that too many dances were skipped, and now that the time for going home is nearing, students would like the dances to be as they used to be when we first came. To have the dances regularly, I think Mrs. Winningham and Mr. Ryll would agree, providing, a few of you boys get up and ask some of these girls to dance. Your co-operation is needed.

....Vivian

SCHOOL IS NOT OVER YET

For the past few days, students here at Wrangell Institute have been taken tests. On March 29th, they took the placement test, which determines where they are to go to next year. The next two days were the Metropolitan Achievement Tests, which determines all that we have learned during our stay here at Wrangell.

But now that the tests are over, we are not through with school yet. We still have one month ahead of us and remember, we also have one more report card to go, so don't stop studying now. You can learn a lot between now and May.

....Vivian

'64 & '65 HERE AT WRANGELL INSTITUTE

'64 & '65 here at Wrangell Institute has been an interesting year for most of the students. The students have learned many new things since last September. Each of the students has made about 250 new friends these past months.

There have been sad and happy days here, but the students are always having something to do in the dorms and on the campus. The guidance section also makes activity schedules day-in and day-out so that the students are always busy.

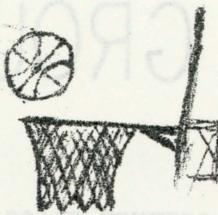

It is now about six weeks until school is out. The students are anxiously waiting for them to pass. Others are wishing the time could slow down because this year might be their last year here and this year might be the students last time seeing their best friends.

Some students are planning on staying for summer school, if there is going to be summer school until July or all summer long. The students can have part time jobs, have some extra school training, and go on camping trips. All of this is going to be a lot of fun, and the students are hoping that we do have summer school.

The ninth grade students have already signed up for where they want to go next year. It is hoped that they make the right decision. Anyway, Chemawa and Edgacumbe both sound like a lot of fun!

....Blanche

# GROUP E

## ALL STARS vs A SQUAD

On April 4th, Sunday afternoon at two o'clock, the A Squad played the best players in the intramural setup. We all selected ten of the best players to play against the A Squad. The ten that were selected were Edward Barr, Carl Okbaak, Wassile Mute, Albert Washington, Eric Charlie, Nicky Katelnikoff, George Williams, Nathaniel Elaugak, Lee Titus, and Phil Hoffman. We all tried our best, but we still got beat.

....Lee Titus

## MAY IS COMING SOON

May is coming soon. Everybody here knows May is the happiest month of the year. Everybody will pack-up their clothing at the end of this month. It will be good to see our friends, brothers, sisters, and our parents. We are going home in May after school is out.

....Thomas Okakok

Larry: Mark, do you know who's holding the world up?

Mark: (with basketball) I am just about to shoot it up.

Ruth F.: Larry was sick and he went to a doctor.

Mary C.: Is he feeling better now?

Ruth F.: No. He has a broken arm.

Mary C.: How did he break it?

Ruth F.: Well, the doctor told him to follow Gail S. where ever she goes. So one day Gail S. fell off a tree and he followed.

....Daniel Douglas

## GOING HOME

Well, to come out with the truth, it's almost time to go home. Soon we will be parting with our best friends. For some of

us, it will be a happy day and for some, it will not be. Anyway, it is always good to go back to your hometown. After nine long months away, it will be good to be back with our old friends at home.

....Kathryn Morrison

## COOK-OUTS ARE FUN

Every since the other Saturday, two sections always go on cook-outs. If you want to go on one cook-out you will have to help clean up in your section. Our section had eleven 18's and one seventeen in two weeks. Eighteen is an excellent number for sections that are clean.

Last week end, section 20 went on the cook-out. That was my section. In this section there are Barbara Cleveland, Wynita Woods, Jane Larkin, Esther Bekealek, Carolyn Ketongan, Darlene Kebuk, Margaret Aketachunak and I. From the boys dorm section thirteen went, but only four boys went. There were Darvin Nelson, Robert Angaiak, Frank McCafferty and Wassile Mute. The two other boys didn't go. The coach Mr. Huebner took us.

....Stella Sheldon

## PICTURES FOR THE BLIND

Sunday the fourth, I made a picture for blind friends. I made a picture with cotton, Easter grass, woolen cloth, and sand paper.

First, I drew the picture. Next, I cut the material out. Then I glued the pattern on the outline of the rabbit.

I made the body out of woolen cloth, the tail and the clouds out of cotton, the grass and the whiskers out of Easter grass, and the carrot and eggs out of sandpaper.

....Margaret Elachik

## GIRLS HAVE ARTS AND CRAFTS

On Wednesday night, from six-thirty to eight clock, the girls have Arts & Crafts. We work on projects together. Now we are working with Crafts-sticks. Some girls have made pocket books, jewelry boxes, picture frames and baskets. Mrs. Winingham has helped in making them. I am almost finished with my pocket book and I hope to give it to my mother as a gift.

....Rose Prince

# ROOM B

## ROOM TO GIVE PLAY

We will have our class play in the gym April 23. I am Sleeping Beauty.

....Juanita Lamont

I am the Good Fairy in our play. Our play is about Sleeping Beauty.

....James Afcan

Our class play will be in the gym April 23. I am the Queen in the play.

Easter is April 18. We will dye Easter eggs in our class room.

....Bernice Zaukar

I am the Third Fairy in our play. Our play is going to be fun.

The clown is the funniest part of our play. ....Elizabeth Charlie

In our class play I am a clown. I will do many tricks. ....Tim Michaelson

Easter is coming soon. We will hide Easter eggs. ....John Lamont

The girls and the boys are coloring Easter rabbits at school.

The girls and the boys had fun coloring Easter rabbit at school. ....Julius

I like to read good stories. When I read my stories well I get a star for reading. ....William John

....William John

We went on hike Saturday down to the deadend of the road. We had fun on our hike.

....Raphael Nattanguk

I went to the movie in town Saturday. We saw a funny show. ....Martha Macar

I went to town to the movie Saturday. We saw a good cowboy show. We had a good trip to town on the bus. ....Leonard Elachik

I went shopping in town Saturday. I bought some candy and a toy. ....John Pete

LN VS SW

# GROUP H

## CUR SCIENCE CLASS

In our science class we studied about Lichens. We learned that lichens were not a single plant. They are really made of two kinds of plants--fungus and algae. It is said that these two plants can grow where neither one could live alone. I think lichens are interesting plants to study.

....Helen Borenin

## SCIENCE WORKBOOK FINISHED

The students of Room H finished their science workbook yesterday April the 5th. In this last unit we were studying about "How Do Living Things Depend on Each Other." It told about how social animals live and if there is a struggle for existence.

Animals of this kind get killed by some other kind of animal. Like the rabbit gets killed by the wolves, or small fish get eaten up by larger fish.

I hope you study hard in science so you can finish your book just like we did.

....Ted Smith

## APRIL PACKING

Here we all are almost three fourths of the year has gone by without knowing it.

There is less than seven weeks till we all start going home.

Planes will be coming back and forth from Wrangell to Juneau.

At the end of the month the matrons will be busy getting the luggages out of the luggage rooms.

The students will all be washing and ironing their clothes.

Well, before long you will be sitting at home before you know it. The students will surely miss lining up for dining hall, movies or doing their share of details with lots of other students.

We all hope they have a wonderful vacation.

....Lilly Neakok

# OFFICE NOTES

Ruth Ferguson & Mark Jack

Fifty children from Wrangell will depart May 22 for Mt. Edgecumbe. They will travel on the ferry to attend summer school at Mt. Edgecumbe. Mr. Watkins, Mr. & Mrs. Winningham, Mr. Huebner and Mrs. Gillespie will go with the children. Some of the children will attend summer school until June 28th. Other children will stay until August 10th. The parents of the children attending summer school will be notified by Mt. Edgecumbe when the children travel to their homes.

The summer program will be beneficial and enriching to all who participate.

Mrs. Walker attended a meeting in Juneau on the selection of boarding school children. Wrangell has accepted one hundred twenty-four children for the next school year.

(Student travel will begin May 21st.)

....Superintendent

There have been some changes in the procedure for handling student travel this spring. All boarding school children will benefit by a Travel Advisor when they arrive at Fairbanks, Juneau, Anchorage, and Seattle. The travel advisor will wear an armband marked BIA Travel Advisor, to identify himself. Mr. Lemley will be one of the travel advisors. He will be stationed at Fairbanks.

Wrangell is planning to have a summer program this year. One hundred six students have expressed interest in participating. A committee has been selected to work out the plans for an active wholesome enriched program.

....Mrs. Lillian D. Walker  
Principal

# INTERVIEW WHO'S WHO?

Roslyn Jones

Vivian Duncan

NAME:	Myrna Moto
BIRTHDAY:	December 13, 1949
BIRTHPLACE:	Deering, Alaska
NATIONALITY:	Eskimo
MAIN INTEREST:	Town Movies, Dances

NAME:	Eugene Bourdukofsky
BIRTHPLACE:	St. Paul Island, Alaska
BIRTHDAY:	August 27, 1949
NATIONALITY:	Aleut
MAIN INTEREST:	Dances and Baseball

NAME:	Henry Matson
BIRTHDAY:	September 7, 1949
BIRTHPLACE:	Port Heiden, Alaska
NATIONALITY:	Aleut
MAIN INTEREST:	Girls, Dances & Movies

NAME:	Kathy Morrison
BIRTHDAY:	February 9, 1950
BIRTHPLACE:	Ketchikan, Alaska
NATIONALITY:	Haida
MAIN INTEREST:	(TF)

This particular girl is very nice and is well-liked. She is very quiet and stands 5 feet 4 inches tall. Her nickname is Dimples, which is favored by most of the students. She is a whiz at school work and surprised quite a few of the students with her loud talking at one of our assemblies. She is usually seen with L.C.

Who is she?????

This particular boy is nice and fun to get along with. He is about 5 feet 3 inches tall, wears glasses, and is mostly seen with D.G. His favorite saying is a-duk. This is his second year here at Wrangell Institute.

Who is he?????

## ROOM A

We check books from the library to read to the class. These are the books we have read.

Mary.....	KATIE THE KITTEN
Dora.....	A DOG FOR SUSIE
Darlene.....	MY BABY BROTHER
Debra.....	GREEN EGGS AND HAM
Winifred.....	COME TO THE ZOO
Roy.....	A BIG BALL OF STRING
Elizabeth.....	ONE FISH, TWO FISH
Evelyn.....	OUR STORE BOOK

### RIDDLES

I wear one every morning.  
It is white and red.  
What is it?  
....Stanilaus Penetac

I take it off in my room.  
I hang it on a hanger.  
What is it?  
....Anthony Prince

## GOING HOME

In about 50 more days the students of Wrangell Institute will be starting for home. Award night and the "Farewell Dance" are to be on the twentieth of May.

On May 21st the Southeastern kids will leave for home. It is hoped that the Nome area kids will leave the 22nd. Don't get me wrong...I don't think they're trying to get rid of you; they just know you're anxious to get home.

There may be some kids who will stay here for the summer or maybe till July. If they do they'll probably enjoy themselves. The way we were told it sounds fun.

....Delores Cook

Just think...school is out next month. Not only that, but we'll be going home.

Seven months have slipped by. Where have those seven months gone? Was there something you did that was worthwhile, during your stay here in the past? If not, why not try to do something worthwhile during the rest of your stay. You can do it for your teachers, friends, sectionmates, matrons, or even yourself.

Let's all try to make these last two months stay here pleasant for everyone. I know Mr. Watkins, Mrs. Walker, Mr. Heflebower, and everybody else will be pleased if everyone tried to do his best. So, let's try to make the rest of our stay here something we'll always remember. Remember, we cannot make our school year of 1964-65 come back.

....Enid Brown

## SPRINGTIME BACK HOME

Around the middle part of April the weather back home starts to get warm and the snow starts to melt. Little streams start to flow. There streams constantly enlarge as more snow melts, and as the temperature goes a little higher. Soon there is water on the river ice. The water continues to "breaks up."

During break-up everybody is excited. Everyone watches as the ice slowly drifts downriver. After almost all of the ice is gone you can hear the familiar sounds of motorboats, as men and boys try out their motors, welcoming the coming of summer.

....Enid Brown

## VOLLEYBALL GAME SOON

Our coach, Mr. Huebner, might let us girls play volleyball against the town girls. The last time we played was here at the Institute, but this time we are going to play at the Wrangell Gym. I wish all the girls good luck both here and at town.

....Vera Baldwin

## P.E. CLASSES HELD OUTDOORS

For the last few weeks, the girls have had their P.E. classes outdoors on the lawn. They have been playing "Eskimo Baseball". It is quite a scene whenever the girls start running like mad when the ball is not near them or when the batter bats the ball beyond the other line or out on the road.

A point is scored when a girl gets to the other line and comes back to the first line sooner or later.

Later on there will be archery, softball, badminton and croquet—that is if it doesn't rain.

....Lucy Nicolai

## ANSWERS TO: WHO'S WHO?

Roberta James

Tony Susook

Helena: This collar is too tight. The laundry must have sent the wrong one.

Blanche: It's yours all right. You have your head in the buttonhole!! hal hal hal

# FRESHMEN

## BIBLE BAPTIST CHURCH NEAR COMPLETION

The Bible Baptist Church in Wrangell is near its completion. Rev. Dan Baldwin, who ministers it, has checked students out on Saturdays to help with the work. We are glad to have services in a church. Before that, people and the students held meetings in the Civic Center. The only problem left is that there is room but, the attendance is low. The church itself has three classrooms for the youngsters, girls, and boys. There is room for the older people in the place where they hold services, but there are no older people attending except for church. Sunday School starts at ten o'clock, church at eleven o'clock, which ends at twelve noon.

....Edwin Kotongan

## ACHIEVEMENT TESTS GIVEN

This week, the students of Wrangell Institute have had their achievement tests to determine which grade each student qualifies for next fall. The freshman class took the high school placement test and the Metropolitan Test. They have also taken a test in science to get an idea of how many students in Alaska have any science ability. The man who had the test arranged for the students to take will come to Wrangell to talk to the students that have this talent in science if enough of the students here at the Institute qualify. If they do qualify, they may try for a scholarship award to study more in science for this special talent they may have. This science test was purposely made to see if the students have any talent in science that is not known. Let's hope at least a few do have talent and have done their very best not only in this science test but also in their achievement tests.

....Roberta James

land and land

VD EB SW

## FOLK DANCING WAS INTERESTING

On Saturday, March 27th, we had a folk dance in the gym. Mrs. Winningham was in charge of it.

Everyone had fun and participated in the dances. It was a lot of fun doing the Virginia Reel and the Hokie Pokie.

After the dances, about 8:00 P.M., we went to the Girls Recreation Room and had two cookies and a apple.

During the evening, games were also enjoyed in the Girls Recreation Room. Everyone had fun there, too.

....Sarah Kakaruk

## SCIENCE REALLY CAN BE FUN

In science, students of Rooms G, I and J are now working on any subject they are most interested in on their own. Students are dissecting earth worms, building telescopes, experimenting with magnets, taking apart fungi, studying the human body and brain, studying energy, types of material that are used to make boats, and many, many other things that pertains to science. They are really getting so much out of what they are doing that it makes everyone really enjoy science more. Mr. Curtis, our science teacher, has a human model set up in the science class room. It is always being taken apart by students who are studying about parts of the human body.

....Gail Sherman

## DEER ON PLAYGROUND

Last week we saw two deer near the school playground on the edge of the forest. They were eating the grass. They stood around for a while then took off. The deer did not seem to be much afraid of the boys and girls, but they did not let the children get near. I hope we get to see more in the future, because they look almost like reindeer and remind us of home.

# BOOK REVIEWS

Delores Cook

Dan Morgan, by Bernice Bryant (Bobbs-Merrill): The story begins near the Delaware River. Dan was a little boy who loved animals. His mother died when he was ten years old. This left Dan and his father much sorrow. Before his mother died she hadn't agreed on traveling like settlers from one place to another. But now Dan and his father moved to Pennsylvania colony to build a furnace of their own.

Dan's father married again when Dan was sixteen so Dan went to Virginia to visit his Uncle John, but failed to find him. He found a job helping George Washington, though. He died, because his army would not turn back when the Indians attacked. Dan Morgan was a hero to the people of Virginia

....Lilly Neakok

Drop-Out, by Jeannette Eyerly (J.B. Lippincott & Co.): Connie Muller and Mitch Donaldson are the main characters of the book. They dropped out of school and ran away to get married but they didn't make it. Before running away they would meet at the school park and go for rides without their parents permission. Connie's parents were strict and didn't allow her to stay out late. This is one reason she wanted to run away.

When they got to a town after running away, they had trouble with their car and had to stay there for quite awhile. While they were there Mitch lost his wallet and they had to find money somewhere. They both tried to find jobs but no one would hire them, because of their lack of schooling. So they returned home without getting married. I guess this book gives good information of how hard it is to get a good job before finishing school.

....Lucy Nicolai

Coon Holler, by Olive Rambo Cook (Logman's, Green & Co.): This book is about a one-room school where one grade is taught to the children who attend it. The name Coon comes from the early settlers who named it, because in these days coons were as thick in the woods as squirrels are today.

Joann and Kenneth Bruce are two students who attend this school. They both spent their summer with their grandparents, because their parents were in a different town looking for a place to live. They did not like staying with their grandparents at first, but when they meet new friends they start enjoying their stay.

....Evelyn Inga

Kayoo the Eskimo Boy, by Margaret Swenson (Charles Scribners & Co.):

The author of this book was a teacher who lived in Kayoo's village in Alaska. She knew a lot about the boys and girls of the village. The illustrations were made by a man who also lived in the village. This book will show you just how the Eskimos boys and girls look and what kind of food they eat. Read this book about Kayoo, his home, his friends, and the way he lives.

....Emily Lisbourne

## MORE ABOUT: OFFICE NOTES

1. Have I done my best in everything I have done?
2. Have I made a good or a bad name for myself?
3. Have I made a lot of good friends or a lot of enemies?
4. Do I have a good feeling for myself?
5. Am I ready to meet new people and make new friends?

If the answers are all positive, then the student has accomplished much. Keep up the good work.

If the answers are negative it is not too late. There is still some time left to get busy and see if they can make a few of the answers positive.

No one else will do things to make a student have friends or to make a good name for them. No one else cares. The individual student must make their own good name. Only you are responsible for your friendships.

### INSTITUTE HAS ESSAY WINNERS ...Roslyn Jones

Early in December, 1964, it was announced that all students at Wrangell Institute in ungraded or freshman classes would be eligible to enter an essay contest which was open for all students attending Bureau of Indian Affairs school.

Suggested subjects of the essay contest for the students to choose from were:

1. Why I wish to go high school, or
2. Why I wish to continue my education,
3. Why I returned to school

The contest was held to help students realize the importance of an education and to understand more about their educational interests by being able to express their feelings in words.

The papers were judged on the basis of:

1. Ideas presented
2. Organization
3. Clarity of expression
4. Grammatical correctness
5. Neatness and legibility

Approximately one hundred and twenty students at Wrangell Institute participated in the contest before Mrs. Walker, school principal, sent in several selected papers for final judgement by the Area Field Office.

Of the papers submitted from Wrangell Institute, two were awarded first place in the ninth grade category, category E. Ruth Ferguson and Sammy Nash were greatly surprised when it was announced in a school assembly, Friday, April 9, that they were each the lucky winners of 17 jewel watches. They also received a certificate of achievement and a letter of commendation from Robert L. Bennett, Area Director. Their selected title was "Why I wish to continue my education".

Both students have expressed their desire for more education, and in turn, how their education will better the progress and welfare of their people.

Wrangell Institute is proud to have two first place winners.

## SPORTS

Larry Evanoff

### BASKETBALL FOR 13 YEARS AND YOUNGER

This team consist of boys 13 years and younger. It also consists of two teams. You might call them A and B Squad.

On the 13th of March which was Saturday, the Baby Eagles played their first game. These games were held at Wrangell Institute gym.

The B Squad played at 1:30. The game was in favor of the B Squad by 34-26. Scoring for the B Squad were: Raymond Pentac 18, King Island; Frank Prince, 6; Sheldons Point; Tim Akers 8, Ketlik; Daniel Callahan 2, Gold Creek; Edward Michelson 2, Kalskag.

The second game was held at 2:30 between the B Squad and the A Squad of the Baby Wolves of the school in town.

This game was in favor of the A Squad of the Baby Eagles by 38-36.

Scoring for the Baby Eagles were: Gus Nelson 14, Kotzebue; Frank Kellner 10, U-gashik; Eugene Asicksik 6, Shaktoolik; Louie Lee 6, Alakanuk; Paul Passamika 2, Napamute.

Both of these teams played good ball for 13 and younger.
